

CONNECTING WITH BROOKS AND JENNY CRAWFORD

BROOKSIDE
design + build

LANDSCAPE
furnish + thrive

Award-winning design company, Brookside Landscape Design is owned and operated by Brooks Crawford out of Carlsbad, California. Brookside transforms residential exterior spaces to be both functional and aesthetically beautiful by designing and integrating hardscape with custom-built elements, plants, and lighting. Brooks is adept at designing, managing, and overseeing the whole vision to ensure it is well-executed. His wife, Jenny (owner of Branch Out Landscapes) specializes in lighting, potted plants, furnishings and décor details for special clients looking to elevate their space to the next level. Their landscape designs transform exterior environments with the goal of encouraging homeowners to spend more time outdoors. Brookside maintains a small client workload with two to three construction projects at a time for dedication and attention to detail. Their design aesthetic is contemporary and organic with hints of warmth and coastal vibes.

“From our initial meeting to project completion, we are beyond thrilled with the aesthetic, quality and overall functionality of our outdoor space. The vision and professionalism of Brooks and Jenny, partnered with their team’s stellar craftsmanship, brought our backyard to life beyond what we had dreamed. We use the space daily and highly recommend Brookside Landscape Design to those looking for an exceptional outdoor living space.”
